### Emergency Contact 2

Name: \_\_\_\_\_ Phone: \_\_\_\_\_

### In case of a **Fire...**

- Call 911.
- Get out of the building quickly.
- Gather up the other people and pets in the house if there is time.
- If there is a lot of smoke, crawl out of the house.
- If there are flames, find the nearest exit which could be a window.
- Move everyone away from the house for safety.

### In case of a **Tornado...**

- Seek shelter in a windowless room on the lowest level of your house.
- Gather family members and pets and take cover.
- Do not leave the space until the tornado sirens have stopped sounding and the winds have died down.

### In case of a **Power Failure...**

- Grab the family emergency kit.
- Unplug electronics to protect from power surges.
- Grab a flashlight.
- Fill water bottles.

### In case of a **Flood...**

- Gather food and water.
- Grab the family emergency kit.
- Pack up the pets and any food they need.
- Gather any medications that family members or pets need.
- If possible, load into the car and drive to higher ground avoiding any flooded roads.
  - DO NOT DRIVE THROUGH STANDING WATER.
- If water is entering the home, climb to the uppermost level of your house. This could be an upstairs, or gaining access to the roof.
  - Make sure to have bright colored clothing to gain the attention of rescuers.
